

2023 EVENT PROGRAMME: INDIVIDUAL MEMBERSHIP

Individual members have limited access to UKPA event programmes including;

Member Meet-ups & Summer Drinks

An in-person opportunity to meet with members across the industry and key partners within our network.

Learn and exchange insights on market trends, opportunities for PropTech support across the industry, share challenges and best practice

Property Breakfast Roundtables

A monthly in-person breakfast event series hosted by Property Gold members where each breakfast aligns with key themes for the year

Debates

Our in-person debate series tackling the big questions on the future of the industry, the barriers to technology adoption, and the impact of technology.

EVENT THEMES 2023:

Theme 1: Data

Effective utilisation of data is an opportunity for the industry to make more efficient decisions BUT it also remains one of the top challenges the property industry is facing and a barrier to realising the true ROI of PropTech solutions.

Theme 2: ESG & Decarbonisation

Across the entire built environment, property companies are grappling with what ESG means for them and challenging targets to reduce the carbon footprint of the buildings they develop, own or manage.

Theme 3: Enabling Technology Adoption

Despite there being many examples of how PropTech can help the property industry with more efficient property management, the implementation process remains slow and getting internal buy in is challenging.
